## CONVERSION LICENCES

### 1 INTRODUCTION

EU regulation (EU) 2020/357 describes the introduction of EU licences and courses for balloon pilot licences and EU regulation (EU) 2020/358 describes the same for sailplane pilot licences. Since these regulations have been introduced, it is possible to convert Dutch national licences into EU licences. The Civil Aviation Authority – The Netherlands (ILT) has described the possible conversions in conversion reports. This AIC clarifies the situation with regard to the conversions mentioned above per 8 April 2021.

### 2 LICENCES

#### 2.1 Sailplanes

National licences, experience and training in the sailplane category can be converted into an EU licence and/or rating in accordance with the conversion report "Conversion GPL into SPL". For more information, refer to <https://www.ilent.nl/onderwerpen/luchtsporters-general-aviation/brevetten-zweefvliegen-en-ballonvaren> (only available in Dutch).

#### 2.2 Balloons

National licences, experience and training in the balloons category can be converted into an EU licence and/or rating in accordance with the conversion report "Conversion CPL (FB) and (KNVvL) BPL into EU BPL". For more information, refer to <https://www.ilent.nl/onderwerpen/luchtsporters-general-aviation/brevetten-zweefvliegen-en-ballonvaren> (only available in Dutch).

### 3 CONTACT INFORMATION
