TRANSPONDER MANDATORY ZONE WITH MONITORING COM CHANNEL BELOW SCHIPHOL TMA 1

1 INTRODUCTION

A temporary TMZ is established below the Schiphol TMA 1 as part of an action plan initiated by LVNL, CLSK, KNVvL, AOPA, NACA and the Dutch State to reduce the number of airspace infringements. The specific aim of this measure is to reduce the duration and severity of airspace infringements in the Schiphol TMA and CTR.

2 REGULATIONS

From 21 March 2024 to 20 March 2025 this TMZ will be active below the Schiphol TMA 1 **between 500 and 1500 FT AMSL**. The dimensions of the TMZ are described in paragraph 3.

In this TMZ pilots of aircraft equipped with a transponder are required to:

- set the transponder to code 7020, and
- maintain an air-ground voice communication watch on 124.300 (Amsterdam Information).

When leaving this TMZ the pilot should change the transponder again to the appropriate SSR code.

Note: for receiving flight information service (FIS), the pilot should establish two-way radio communication with Amsterdam Information. The transponder code remains 7020.

Pilots of the following flights are exempted of these regulations:

- State flights with dedicated transponder codes;
- Gliders, paragliders, hanggliders, paramotors and model aircraft;
- VFR flights westbound on the MIKE Arrival to Lelystad Airport (EHLE);
- Local VFR circuit traffic at Hilversum Airport (EHHV).
- For flights from and to Middenmeer local agreements have been made between LVNL and Middenmeer Airport.
