**WEAK LINKS****1 INTRODUCTION**

The following weak links and protective sleeves, as referred to in article 19 of the Regulation technical requirements for winches, towing-cars and towing-lines (Regeling technische voorschriften voor lieren, sleepauto's en sleepkabels), and article 5 of the Regulation for tow-flight devices (Regeling voorzieningen sleepvliegen), are admitted by the Minister of Infrastructure and Environment for the use of:

- launching gliders, and;
- towing, with a tow plane, of gliders, banners and practise targets for anti-aircraft shooting.

**Note:** the complete Dutch text of the regulations are available on the website [www.overheid.nl](http://www.overheid.nl).
