

# ENR 5 NAVIGATION WARNINGS

## ENR 5.1 PROHIBITED, RESTRICTED AND DANGER AREAS

### 1 GENERAL

Airspaces where potential hazards to aircraft operations may exist and all areas over which the operation of civil aircraft may be temporarily or permanently restricted, are defined in the following categories:

- Prohibited, restricted and danger areas;
- Temporary reserved airspaces;
- Temporary segregated area;
- Cross border areas;
- Aerodrome traffic zones;
- Other permanent hazardous areas.

For some of the above mentioned reserved/restricted areas, a flight planning buffer zone (FBZ) is created (see ENR 1.10). The FBZ is the associated airspace which may be applied to a reserved/restricted area.

An FBZ is identified by the identification code of the associated restricted area with an added Z. For example, EHR4A has FBZ EHR4AZ.

#### 1.1 Temporary reserved airspace (TRA) and danger areas above international waters

Certain flying activities are not readily adaptable to air traffic control, since specific aircraft - during at least part of their flight - cannot maintain a constant profile, heading and speed (e.g. test flights, air combat training manoeuvres). Based on the provisions laid down in PANS-ATM (Doc 4444, chapter 16, paragraph 16.1.3) a certain portion of the airspace in the Amsterdam FIR has been designated as danger area if situated above international waters or as temporary reserved airspace (TRA).

For danger areas above international waters (EHD01-09) and all TRAs the following applies:

- En-route IFR and VFR GAT shall remain clear of the areas.
- The areas are activated by AUP.
- Authorisation for use of the areas is subject to pre-scheduling and is granted only to OAT and/or special test flights.
- MILATCC Schiphol provides ATC service for OAT en-route to/from the areas below FL 245. Maastricht UAC provides ATC service for OAT en-route to/from the areas above FL 245.
- Air defence stations of the NATO air defence system are responsible for the air defence operations in the areas, unless the areas have been scheduled for autonomous operations.
- Air defence service in the areas comprises advisory or positive control service in accordance with parent NATO regulations.

#### 1.2 Airspace management cell (AMC) manageable areas

Military exercise areas are normally prohibited for civil aircraft within the in ENR 5.1 published periods and dimensions. In order to comply with the flexible use of airspace concept in EU regulation 2150/2005, certain areas may be temporarily allocated by the Airspace Management Cell. These so called AMC manageable areas (AMA) are published in a daily airspace use plan (AUP) or updated airspace use plan (UUP) in which the available times and dimensions of the AMA is communicated with the ANSP's and the CFMU. Depending on airspace classification certain AMA are also published by NOTAM.

In the Amsterdam FIR, temporary reserved airspace (TRA), cross border areas (CBA), restricted (R) and danger (D) areas can be defined as AMC manageable areas.

### 2 PROHIBITED, RESTRICTED AND DANGER AREAS

Prohibited, restricted and danger areas within the Amsterdam FIR are established either on a temporary or a permanent basis when considered necessary for the purpose of safety and not solely for air traffic control reasons. These areas do not interfere with published ATC procedures. Activation of areas subject to intermittent activity is notified well in advance by NOTAM giving reference to the area designator only.

The type of area is indicated by an initial letter (P for prohibited, R for restricted, D for danger), preceded by the nationality designator EH. For example, areas are assigned number and letters in the following manner: EHR1, EHR2, . . . EHP25, etc.

Prohibited, restricted and danger areas may for operational and/or safety reasons be extended laterally as well as vertically by NOTAM. The areas are shown on chart ENR 6-3.1.

#### 2.1 Prohibited areas

Definition: an airspace of defined dimensions, above the land areas or territorial waters of the Netherlands, within which the flight of aircraft is prohibited.

This term is only used when the flight of civil aircraft within the designated airspace is not permitted at any time under any circumstances.

PROHIBITED AREAS		
Identification, name and lateral limits	Upper limit Lower limit	Remarks (time of activity, type of restriction, nature of hazard, risk of interception)
1	2	3
<b>EHP25 (Drakensteijn Castle)</b> Circle, radius 0.5 NM, centre 52°10'47.41"N 005°13'37.76"E.	2000 ft AMSL GND	H24

## 2.2 Restricted areas

Definition: an airspace of defined dimensions, above the land areas or territorial waters of the Netherlands, within which the flight of aircraft is restricted in accordance with certain specified conditions.

This term is used whenever the flight of civil aircraft within the designated airspace is not absolutely prohibited but may be made only if specified conditions are complied with. Thus, prohibition of flight except at certain specified times leads to the designation of the airspace as a 'restricted area' as would prohibition except in certain meteorological conditions. Similarly, prohibition of flight unless special permission has been obtained, leads to the designation of a restricted area.

RESTRICTED AREAS		
Identification, name and lateral limits	Upper limit Lower limit	Remarks (time of activity, type of restriction, nature of hazard, risk of interception)

## 2.3 Danger areas

Definition: an airspace of defined dimensions within which activities dangerous to the flight of aircraft may exist at specified times.

This term is only used when the potential danger to aircraft has not led to the designation of the airspace as restricted or prohibited. The effect of the creation of the danger area is to caution operators or pilots of aircraft that it is necessary for them to assess the dangers in relation to their responsibility for the safety of their aircraft.

### 3 TEMPORARY RESERVED AIRSPACE (TRA)

Definition: a defined volume of airspace normally under the jurisdiction of one aviation authority and temporarily reserved, by common agreement, for the specific use by another aviation authority and through which other traffic may be allowed to transit, under ATC clearance.

The areas are shown on charts ENR 6-3.1.

#### 4 TEMPORARY SEGREGATED AREAS (TSA)

Definition: a defined volume of airspace normally under the jurisdiction of one aviation authority and temporarily segregated, by common agreement, for the exclusive use by another aviation authority and through which other traffic will not be allowed to transit.

The areas are shown on charts ENR 6-3.1.

TEMPORARY SEGREGATED AREAS		
Identification, name and lateral limits	Upper limit Lower limit	Remarks (time of activity, type of restriction, nature of hazard, risk of interception)
1	2	3
<b>EHTSA1A (De Peel A)</b> Circle, radius 6.5 NM, centre 513102N 0055120E.	FL 195 GND	Activated by NOTAM. Prohibited when activated, unless permission from MILATCC Schiphol. Military exercises.
<b>EHTSA1B (De Peel B)</b> 513112N 0060144E - 512000N 0060209E - 511510N 0055700E - 511520N 0054850E - 512000N 0054209E - 512802N 0054209E - along anticlockwise arc (radius 6.5 NM, centre 513102N 0055120E) - 513112N 0060144E.	2500 FT AMSL 1200 FT AMSL	Activated by NOTAM. Prohibited when activated, unless permission from MILATCC Schiphol. Military exercises.
<b>EHTSA16 (Amsterdam/Dam Square)</b> Circle, radius 2 NM, centre 522200N 0045400E.	FL 055 GND	Prohibited 04 MAY between - (1655-1930) due to memorial ceremony. Excepted are emergency flights by or on behalf of police, trauma teams or SAR.  <b>Note:</b> during the year additional memorial ceremonies might be held which will be promulgated by NOTAM separately.
	FL 145 GND	Prohibited 04 MAY between - (1758-1803) due to memorial ceremony. Excepted are emergency flights by or on behalf of police, trauma teams or SAR.
<b>EHTSA17 (Apeldoorn/Loenen)</b> Circle, radius 2 NM, centre 520700N 0060100E.	FL 055 GND	Prohibited 04 MAY between - (1200-1300) due to memorial ceremony. Excepted are emergency flights by or on behalf of police, trauma teams or SAR.
<b>EHTSA18 (Bloemendaal/Overveen)</b> Circle, radius 2 NM, centre 522400N 0043700E.	FL 055 GND	Prohibited 04 MAY between - (1730-1830) due to memorial ceremony. Excepted are emergency flights by or on behalf of police, trauma teams or SAR.
<b>EHTSA19 (Rhenen/Grebbeberg)</b> Circle, radius 2 NM, centre 515730N 0053530E.	FL 055 GND	Prohibited 04 MAY between - (1710-1840) due to memorial ceremony. Excepted are emergency flights by or on behalf of police, trauma teams or SAR.
<b>EHTSA20 (The Hague/Indisch Monument)</b> Circle, radius 2.5 NM, centre 520549N 0041733E.	3000 FT AMSL GND	Prohibited 15 AUG between - (1700-2100) due to memorial ceremony. Excepted are emergency flights by or on behalf of police, trauma teams or SAR.
<b>EHTSA21 (Westerbork)</b> Circle, radius 1.5 NM, centre 525516N 0063411E.	3000 FT AMSL GND	Prohibited 04 MAY between - (1700-1900) due to memorial ceremony. Excepted are emergency flights by or on behalf of police, trauma teams or SAR.
<b>EHTSA22 (Amsterdam/Bijlmermeer)</b> Circle, radius 3 NM, centre 521908N 0045832E.	FL 065 GND	Prohibited 04 OCT between - (1600-1700) due to memorial ceremony. Excepted are emergency flights by or on behalf of police, trauma teams or SAR.
<b>EHTSA23 (Margraten)</b> 505147N 0054509E - 504913N 0055827E - 504530N 0055639E - 504804N 0054322E - 505147N 0054509E.	3000 FT AMSL GND	Activated by NOTAM due to memorial ceremony during Margraten Memorial Day, the last Sunday of May. Prohibited for all traffic except emergency flights by or on behalf of police, trauma teams or SAR.
<b>EHTSA24 (Soesterberg)</b> 520900N 0051000E - 521200N 0052500E - 520400N 0052500E - along parallel - 520400N 0051000E - 520900N 0051000E.	FL 090 GND	Activated by NOTAM due to memorial ceremony on 04 MAY and 01 JUL. Prohibited for all traffic except emergency flights by or on behalf of police, trauma teams or SAR.
<b>EHTSA27 (Den Haag)</b> 520836N 0042345E - 520737N 0042605E - 520630N 0042421E - 520336N 0041805E - 520514N 0041624E - 520836N 0042345E.	2000 FT AMSL GND	Activated by NOTAM due to memorial ceremony Veterans day. Prohibited for all traffic except emergency flights by or on behalf of police, trauma teams or SAR.

Military exercises. Vertical limits may vary within the area.  The part of EUCSEA1L east of meridian 00630E is situated within the Bremen FIR.
<b>EUCSEA1LZ</b> 550000N 0053400E - along parallel - 550000N 0063000E - along parallel - 550000N 0073918E - 545749N 0074151E - 535209N 0065837E - 534726N 0063000E - 533828N 0053730E - 533958N 0053400E - 550000N 0053400E.	<u>FL 660</u> FL 055	For IFR flight planning purposes only.  The part of EUCSEA1LZ east of meridian 00630E is situated within the Bremen FIR.

**6 AERODROME TRAFFIC ZONES (ATZ)**

Definition: an airspace of defined dimensions established around an aerodrome for the protection of aerodrome traffic.

An ATZ has been established around the following aerodromes. The activities conducted at these aerodromes make it undesirable for other aircraft, not engaged in these activities, to penetrate or otherwise disturb the traffic pattern. In this case, the ATZ is primarily reserved for use by aircraft participating in the activities of the aerodrome. Overflying aircraft are strongly recommended to stay clear of the ATZ

1	2	3
<b>ATZ Budel - part A</b> 511743N 0053057E - along clockwise arc (radius 5 NM, centre 511421N 0053650E) - 511052N 0054231E - along Dutch-Belgian border - 511152N 0053910E - 511521N 0053324E - along Dutch-Belgian border - 511743N 0053057E.	<u>1200 FT AMSL</u> GND	OPR HR EHBD (see EHBD AD 2.3). ATZ Budel is situated within Kleine Brogel CTR, the air- space classification is class G. ATZ Budel is only for flights to and from Budel AD and circuit flights. Pilots conducting flights within ATZ Budel have to main- tain two-way radio contact with the aerodrome authority.
<b>ATZ Budel - part B</b> 511521N 0053324E - 511152N 0053910E - along Dutch-Belgian border - 511521N 0053324E.	<u>600 FT AMSL</u> GND	
<b>ATZ Schinveld</b> 505834N 0055818E - 505848N 0055819E - along Dutch-German border - 505900N 0060136E - along Dutch-German border - 505854N 0060137E - 505856N 0060117E - 505850N 0060058E - 505833N 0060020E - 505834N 0055818E.	<u>up to 3000 FT AMSL</u> GND	OPR HR EHBK during UDP (see EHBK AD 2.3). ATZ Schinveld is situated within Maastricht CTR. All aircraft not participating in the glider activities at or near Schinveld glider site are strongly recommended to stay clear of the ATZ, unless an ATC clearance to cross has been obtained from Beek Tower. This clearance will only be issued when there are no glider activities at Schinveld glider site. ATZ Schinveld is during set time periods subject to local agreement for use by local participants only.
<b>ATZ Teuge</b> 521742N 0060940E - 521353N 0060957E - 521152N 0060252E - 521240N 0060000E - 521354N 0055713E - 521724N 0055829E - 521742N 0060940E.	<u>1500 FT AMSL</u> GND	OPR HR EHTE outside UDP (see EHTE AD 2.3). ATZ Teuge is situated in airspace class G.
<b>ATZ Twente</b> 521707N 0064436E - 522138N 0065918E - 521849N 0070237E - along Dutch-German border - 521618N 0070155E - 521554N 0070208E - 521037N 0064719E - 521339N 0064312E - 521707N 0064436E.	<u>2200 FT AMSL</u> GND	OPR HR EHTW during UDP (see EHTW AD 2.3). Traffic not in- or outbound ENSCHEDE/Twente is strongly advised not to enter the ATZ. ATZ Twente is situated in airspace class: <ul style="list-style-type: none"> <li>• G GND-1500 FT AMSL;</li> <li>• E 1500 FT AMSL-2200 FT AMSL.</li> </ul>
<b>ATZ Veendam</b> 530415N 0064852E - along clockwise arc (radius 0.88 NM, centre 530504N 0064925E) - 530514N 0065051E - 530446N 0065100E - 530444N 0065258E - 530351N 0065225E - 530303N 0065112E - 530323N 0065014E - 530415N 0064852E.	<u>up to 1500 FT AMSL</u> GND	OPR HR EHGG during UDP (see EHGG AD 2.3). All aircraft not participating in the glider activities at or near Veendam glider site are strongly recommended to stay clear of the ATZ. ATZ Veendam is during set time periods subject to local agreement for use by local participants only, exempted from the TMZ Eelde.

**7 OTHER PERMANENT HAZARDOUS AREAS****7.1 Low flying areas and low flying routes**

Low flying areas and routes in the Amsterdam FIR are solely assigned to certain military and/or civil parties authorised by the appropriate authorities to operate below the minimum height as defined in SERA.3105. The civil and military low flying areas are depicted on chart ENR 6-5.2 (military areas are listed in ENR 5.2).

General remarks:

- a. Built up areas, populous beaches, crowds, Royal residences, hospitals, health resorts, etc. shall be avoided.

- b. Aircraft leaving low flying area and/or low flying routes will climb to an altitude designated by ATC.
- c. Low flying in civil low flying areas (see paragraph 7.3) is only permitted to single engine aircraft for practising go-arounds during training flights under supervision of an instructor.
- d. Listing of a low flying area or route does not imply any right to a pilot to use that low flying area or route.

Outside designated low flying areas and routes, low flying may take place:

- below 500 FT AGL/AMSL by aircraft of the State Police and by military aircraft in connection with exercises of the Netherlands Forces;
- over water areas by helicopters.

### 7.2 Intensive military aircraft within and near EHR4 (Vliehors)

- Expect intensive OAT MON-THU 0700-2300 (0600-2200) and FRI 0700-1600 (0600-1500) within and near the restricted area EHR4 between 1000 FT and 1750 FT.
- The OAT route to and from EHR4 is shown on the Aeronautical chart the Netherlands - ICAO 1:500 000.
- Crossing and entering EHR4, EHR4A, EHR4B, EHR4C, EHR4D, EHR4E AND EHR4F (Vliehors) is prohibited to general aviation when active. Police, SAR, HEMS and flights to and from oil platform L15-FA-1 are exempted. These flights must be coordinated with Dutch MIL Info (COM CH 132.350) prior to entry. Airspace classification G is applicable within the above mentioned airspace.
- The range controller does not provide ATC service or clearances to enter EHR4.
- Pilots are responsible for avoiding EHR4 and other traffic.

### 7.3 Simulated forced landing areas for general aviation
